The door leading from the bed-room of the deceased into the dining-room is found to have been locked-a significant fact, inasmuch as it is known that this door was never ultimo in the Bay of Caliao. The attention the light from the rear of the building, as of San Lorenzo, was attracted by a struggle several families reside in sight to the rear, in the water between a seal and a large fish, and the light from the burning building the species of which they were at first unable at we do not believe in making large profits, we EFTAIL OUR GOODS to consumers at the st wholesale prices, adding only enough to pay tion I will state that it is most reasonably surface, floundering in an extraordinary presumed that the house was fired in the bed-room of the deceased.

CONCLUSIVE EVIDENCE OF FOUL PLAY.

But the strongest evidence, and which is entirely conclusive that Mr. Walton was eyes, had been bitten off by the seal, and thus brutally murdered, is the fact of the this had so stupefied the fish as to render its error, and continued until to-day. eash-drawer, or rather that portion of it containing the partitions for currency and cups for coin, having been found. This was found on yesterday afternoon. It was discovered lying about tifteen yards to the rear of a tobacco-house, which hou e is not more than may yards (it. indeed, that distance) from where the burned building the Chinese, the Six Companies should take man, charged with disorderly conduct, was stood. This is, as before stated, most conclusive evidence of the murder, and even those who were disposed to consider the occurrence an accident (and they are very few) now admit there is not a possibility of a doubt as to the murder. But the arpearance of the drawer is quite strange. The inquest was held in the tobacco-Walton were carried there from the debris people of the East-and the Californians of the burned building, where they were looked upon by many. Persons were around this house on all sides climbing up the sides to peer through the cracks, when the crowd was so large inside as to admit of no more, and it is strange that this drawer could have been in the position found on Sunday and not have been observed by some one. In fact, this is most improbable. It must have been brought back; and party in so doing? It is thought that the the Archbishop of Cincinnati should be pathy with the crime, and who wished to matter will be brought before the bishops it himself lest he should be suspected promulgated after Easter, and be presented last night it will be repeated until Saturday of complicity in the matter. This is reasonable, as some persons might correctly be presumed to be timid in a case of this kind when excitement prevails to such a great extent. But, however this may be, the finding of the drawer is proof positive of robbery, and therefore of the murder. This drawer contained some currency (what amount is not exactly known) and about \$25 in silver coin. None of this coin has been discovered, though a few mekels and coppers have been. It is not presumable that this silver coin melted, as pewter spoons have been found unmelted, and the heat and fire hardly took the polish off of the knives in the show-case. Then, again, if

Another fact still further (if that is possible) confirms the murder. A piece of silver money has been found in the edge of some pines about a quarter of a mile from the site of the store, and which goes to show that the fiend went in that direction and

dropped the same by accident. Upon the whole, there is not a shadow of a doubt that Mr. Walton was murdered, robbed, and the building then burned, and no pains or labor will be spared in a diligent and searching investigation in order to get some clue on the guilty parties.

A CURIOUS PUZZI.E .- Here is something to scratch your head over. A very curious number is 142,857, which multipled by 1, 2, 2, 3, 4, 5, or 6, gives the same figures in the same order, beginning at a different point, but if multiplied by 7 gives all nines:

 $142,857 \times 1 = 142,857$ 142,857x2=285,714 $142.857 \times 3 = 428,571$ 142.857x4 = 571,428142.857x5 = 714.285 $142.857 \times 6 = 857.142$ 142.857x7 = 999.999

Muliply 142,857 by 8 and you have 1,142, 856. Then add the first figure to the last and you have 142,857, the original number, with figures exactly the same as at the start.

Surveys and estimates are being made which may result in a new land line between Boston and New York. The route will be formed by building some three miles of road to connect the Old Colony at Raynham with the Boston and Fitchburg road at Attleboro', and five miles to connect the Attleboro' branch with the New England and New York road. one exception. To show the truthfulness of this assertion the writer will relate what occurred yesterday concerning the case of William Pemberton, charged with committing an indecent assault upon a young lady who resides several miles from this city, on the Midlothian pike, and of which a brief notice was given in yesterday's issue. A warrant was sworn out against Pem-

herton, charging him with the crime. He was subsequently arrested and brought before Wilson Howlet (colored), justice of the peace for Manchester township, and was allowed bail, without the examination of a single witness, in the sum of \$500 to appear before the magistrate's court (Howlet's) this afternoon. Afterwards the question was asked the Justice who sat in the case, Why was it he allowed the prisoner bail, knowing at the the time he was charged with a beinous crime? His answer was that "the prisoner took an oath he was not guilty," and furthermore said he "had been ac quainted with him for a long time, and found him to be a man of truth; and he was almost sure the prisoner would be present for the examination; and if not, he (the Justice) would get the \$500." The examination of Pemberton will take

place, as above stated, this afternoon at the place known as Big Joe's. He says that he can prove an alibi by several witnesses.

A Fight About a Valentine - A fight oc curred in Chesterfield last Saturday several miles from the court-house between WANTED, A MAN TO TAKE CHARGE OF A SMALL I LACE adjoining the city—one who thoroughly understands gardening. Inquire or address 1430 Franklin street, city. mb 11-31* Landon Mockham and Thomas Clay, two well-known farmers of that vicinity, resulting in Clay being stabbed in the neck with a pocket-knife, inflicting a very painful wound. The parties were examined before a magistrate Tuesday and sent on to the grand jury of the County Court for indictment. The fight originated from Clay sending a comic valentine to a daughter of Mr. Mockham.

Fire in the Woods .- A fire occurred Tuesday in the woods, about three miles down the Petersburg railroad, and destroyed a large number of trees and undergrowth; and from the latest reports was still burning.

Fell In .- The roof of an old house recenty occupied by several negroes, in the vicinty of Broadrock, about three miles from this city, fell in yesterday morning and P. T. A., Richmond post-office. The house has been in a very dilapidated condition for many years.
